

APPLICATION FOR PERMIT

Serial No. 4331

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office FEB 26 1917
Returned to applicant for correction
Corrected application filed

The undersigned Dell M. Cahoon and Andrew C. Cahoon,

Name of applicant.

of Osceola, County of White Pine

State of Nevada, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation give date and place of incorporation.)

1. The source of the proposed appropriation is Weaver Creek.

Name of stream, lake, or other source.

2. The amount of water applied for is 50 Acre Feet second-feet.

One second-foot equals 40 miners' inches.

3. The water to be used for Irrigation.

Irrigation, power, mining, manufacturing, domestic, or other use.

4. The water is to be diverted from its source at the following point: distant from the Quarter corner on Sec. line bet. Sec. 7 & 18 T. After release from storage, at a point which bears N. 6° E. 1881 ft. 14 N. R. 69 E. Mt. Diablo Base and Meridian; after having been stored and a reservoir proposed to be constructed at a point on Weaver Creek which bears N. 74° E. 4152 Feet distant from the S.E. corner of Sec. 15 T. 14 N. R. 68 E. Mt. Diablo Base and Meridian.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

(a) Number of acres to be irrigated is 320

(b) Description of land to be irrigated Within the South half of Sec. 8, the S. half of Sec. 9, and Sec. 16, T. 14 N. R. 69 E. Mt. Diablo Base and Meridian. Section 8 being unsurveyed.

(c) Irrigation will begin about March and end about October, of each year.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

(d) Power to be developed is horsepower.

(e) Works to be located

Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.

(f) Point of return of water to stream

Describe in same manner as point of diversion.

(g) Remarks

DESCRIPTION OF PROPOSED WORKS

Earthen dam

State manner in which water is to be diverted; whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works \$500.00.
6. Estimated time required to construct works Two years.
7. Remarks It is proposed to use this stored water in connection with other waters after released ^{to be diverted at a point which bears N.} 6° E. 1881 Feet distant from the quarter Corner on section line bet. Sec. 7 & 17 T. 14 N.R. 69 E. Mt. Diablo Base and Meridian.
Dell M. Cahoon & Andrew C. Cahoon, Applicant.

, Engineer.

PROTESTED by Geo. S. Robison, et.al., March 26th, 1917.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed

Fifty acre cubic feet per second. annum.

Actual construction work shall begin on or before June 15th, 1918.

Proof of commencement of work shall be filed before July 15th, 1918.

Work must be prosecuted with reasonable diligence and be completed on or before June 15th, 1920.

Proof of completion of work shall be filed before July 15th, 1920. Application of water to beneficial use shall be made on or before June 15th, 1924. Proof of the application of water to beneficial use must be filed with State Engineer on or before July 15th, 1924.

Map filed JU 15 1918

WITNESS MY HAND AND SEAL this 15th day

of November, 1917.

J. D. Vaughan
State Engineer

J. D. Vaughan
State Engineer

This permit is issued subject to all prior rights on the source, and with the understanding that the applicants shall be allowed to impound the excess waters of Weaver Creek during the non-irrigation season commencing November 1st, of each year, and continuing for such a length of time during the spring of the following year as sufficient water is flowing as determined by the State Engineer to provide proper irrigation for all prior rights on the stream system. It is distinctly understood, however, that applicants will cease diversion and storage of water immediately upon notification from the State Engineer that a shortage of water exists in the source herein described.

It is further understood and agreed that applicants shall construct standard headgates and weirs both above the proposed reservoir and at or near the outlet of said reservoir in order that the State Engineer may, at any time, be able to determine the amount of water being conserved and also the length of time during which such conservation may be permitted without prejudice to any of the prior rights on the stream system.

The State reserves the right to regulate the use of the water herein granted at any and all times. Any violation of the terms of ~~shall~~ constitute a forfeiture thereof.
